

I just wanted to comment on how K-LOVE is needed in my area. This channel is the only one that I let my kids listen to in the car. I do not have to worry about anything bad being said on the station. This radio station is the only christian station in my area that plays uninterrupted christian music. I support this station with a monthly pledge. If the station were displaced by an LPFM broadcaster I would have to worry about what my kids will hear on the radio stations we would have to listen to. I feel that the radio station is very uplifting and helps me when I am having a bad day by improving my attitude. I believe that there is a great need for this radio station in our area. It would be safe to say that there are many other people in my area that feel this way. The proof of the previous statement is the fact that the people of this area have pledged and are currently supporting three frequencies in our area(104.3,96.9 and 102.3). This station is a non profit station that is supported by the pledges of people like me. I kind of feel like this is my station because I am helping to keep it on the air with my pledge. There are many people I know of personally who have turned on K-LOVE and had heard something that they needed to help them get through the day emotionally!
